

## Jimmy Kollmer National Cold Chain Manager

### *Polar Leasing Company (PLC)*

Jimmy Kollmer is a seasoned expert with several decades of experience in sales and management. As the National Cold Chain Manager at Polar Leasing Company (PLC), he has been instrumental in introducing innovative solutions to agents in the cold chain industry. PLC offers the largest fleet of ground-resting walk-in freezer and refrigerator rentals for the pharmaceutical industry, specializing in standard and custom refrigeration units for short and long-term pharmaceutical needs, including R&D, clinical trials, and gel pack conditioning.

Under Jimmy's leadership, PLC has become the go-to rental cold storage solutions provider for stop-gap and day-to-day upgrade and maintenance challenges. He spearheaded PLC's initiative to provide validation reports for spec models. This unique program offers customers up-front assurance that their unit meets the temperature and function requirements of International Good Distribution Practices (GDP) directives.

Throughout the tumultuous COVID-19 pandemic, Jimmy navigated PLC in expanding its reach to over 70 nationwide locations. He swiftly mobilized the company's resources to respond to the rapidly-shifting and urgent requirements of its customers, reinforcing PLC's reputation as a trusted and reliable pharmaceutical partner.

Jimmy leads an experienced team of researchers, engineers, and technicians who are dedicated to continuous improvement. His commitment to providing state-of-the-art options, along with flexibility for time-sensitive projects and logistics, helps PLC distinguish itself among its competitors.

In addition to his impressive career at PLC, Jimmy is a proud alumnus of Ohio State University and an active member of its Athletics Alumni Association. As a former small business owner, he recognizes the importance of ongoing professional development and stays up-to-date with the latest trends and best practices in the pharmaceutical industry by collaborating closely with various associations and organizations. Jimmy's vast knowledge and expertise make him a trusted authority in the pharmaceutical industry.
